

VISHNU VARDHAN REDDY DUNNUTHULA

Kadapa, Andhra Pradesh | +91 9390468816 | vardhanr389@gmail.com

PROFESSIONAL SUMMARY

Mechanical Engineering graduate with a growing interest in how technology and automation can make everyday operations simpler and more efficient. Comfortable working with **SQL/MySQL, Excel, and basic Python** for data analysis, reporting, and problem solving. Through academic projects and internship experience, developed a practical approach to understanding problems, working with data, maintaining accurate documentation, and collaborating with teams. Eager to build a career in **application automation and technology operations**, with a strong willingness to learn RPA and enterprise automation tools.

TECHNICAL SKILLS

Programming & Database: SQL, MySQL, Python (Basic), Pandas, NumPy

Data & Reporting: MS Excel, Power BI (Basic), Tableau (Basic), Data Analysis, Data Validation, Reporting

Automation & Operations: Process Automation Fundamentals, RPA Concepts, Application Support Fundamentals, Incident Management Basics, Troubleshooting

Professional: Problem Solving, Analytical Thinking, Communication, Teamwork, Time Management, Adaptability, Continuous Learning

EDUCATION

B.Tech – Mechanical Engineering | Rajeev Gandhi Memorial College | **CGPA: 7.0**

PROJECTS

Technical Data Analysis Project

- Worked with structured datasets in **Microsoft Excel** to identify trends, patterns, and useful insights.
- Cleaned, filtered, and validated data, then prepared dashboards and reports to present findings clearly.

SQL Database Analysis Project

- Used **SQL** to retrieve, filter, join, and analyze structured data for reporting and problem solving.
- Investigated inconsistencies and recurring patterns using JOINS, GROUP BY, aggregate functions, and subqueries.

Python Data Processing Project

- Used **Python, Pandas, and NumPy** for basic data cleaning, transformation, and analysis.
- Practiced simplifying repetitive data-processing tasks and organizing datasets for accurate analysis.

INTERSHIP

IFB Industries Pvt. Ltd.

- Supported day-to-day production and operational activities while maintaining accurate records and documentation.
- Assisted with data analysis and report preparation, helping the team track operational information clearly.
- Worked closely with team members to complete assigned tasks accurately and on time, gaining practical exposure to process monitoring and problem solving.

CERTIFICATIONS

NPTEL – Internet of Things (IoT) | NPTEL – Soft Skills | VLSI Certification

CORE STRENGTHS

SQL & MySQL | Python | Data Analysis | Process Automation Fundamentals | Application Support | Troubleshooting | Reporting & Documentation | Analytical Thinking | Problem Solving | Communication | Team Collaboration | Adaptability

CAREER INTERESTS

Interested in **Intelligent Automation, RPA, Application Maintenance, and Technology Operations**. Currently building knowledge of automation concepts and interested in learning **Automation Anywhere** and other enterprise tools. Open to rotational shifts and comfortable working both independently and as part of a team.
